Memory: 1 GB RAM

Network: Broadband Internet connection

Storage: 200 MB available space

Additional Notes: Network Bandwidth of 5Mbps for 540p, 3Mbps for 360p.

English

This movie is totally awesome! I waited quite awhile for it and it was definitely worth the wait. It has done great with the continuation of the storylines from the previous two movies and has actually done some great plot twists as well. The acting is A+ and the video quality as well. Overall, a great job done for all JourneyQuest people. :) Keep up the great work gang! Looking forward to seeing the season 4 and 5 movies when they come along. :)). Love this series, can't wait to see more!. This is "the one and only..." & it REALLY progresses the story.

Serious character development, especially at the end.. Another great movie by ZOE. Keep up the good work guys, can't wait for the next one to come out!. In short, genuinely entertaining, and a fun watch. Personally, I really enjoy this series; there's drama, comedy, suspense, action, romance, more comedy - all rolled into a generic fantasy setting. The series bucks some of the fantasy trends, whilst sticking to others doggedly. Given this, some of the scenes that would otherwise be predictably trite turn out to be very entertaining when they completely counter your expectations. JourneyQuest keeps you guessing, and in so doing, it holds your attention quite effectively.

This is a very easy series to like. It doesn't pretend to be anything it "isn't". That said, I suppose it really doesn't need to. It is quite unique and strangely endearing in its writing and execution. I would say it's quite incomparable to anything else out there. Absolutely worth a watch. Nice one Zombie Orpheus. You done good.
