PNA. It supports only the classical features of Garmin GPS and PDA, but has a new, ingenious navigation tool, "Vista Panoramic" - the unique visual mode that allows you to see not only the road ahead, but the background too. This unique visual mode allows you to determine how close to you road, trees and other objects are. You can see how the altitude is between the road and its background, and change the font size depending on the situation. Vista Panoramic is the best way to plan your route. . PNA. It supports only the classical features of Garmin GPS and PDA, but has a new, ingenious navigation tool, "Vista Panoramic" - the unique visual mode that allows you to see not only the road ahead, but 82157476af
